# Toqa Swedat

About Me :
A Front-End Web Developer, I can develop full responsive websites and HTML5 advertisements banners with and without any framework, for example: (Bootstrap) and I can animate its design to be more awesome and high appearance for the end-users using HTML5, CSS, and JavaScript. I love creating awesome as per my clients' needs, I think user experience when I try to craft something for my clients, Making a design awesome. Now I'm going forward ...
On the other side, I'm an active volunteer in different fields, I am always excited to join teams and learn new things, I have a passion for everything I do, and have the ability to adapt to any new work environment.

Service

Clean Code
I provide clean code with the possibility of quick understanding by simple standards, trying to avoid errors, and I also shrink the code to the smallest possible size

Full Responsive
I build 100% responsive websites on all screen sizes in different versions with a touch of creativity in motion and volume with the best divide and collection
